What do you already know about data?

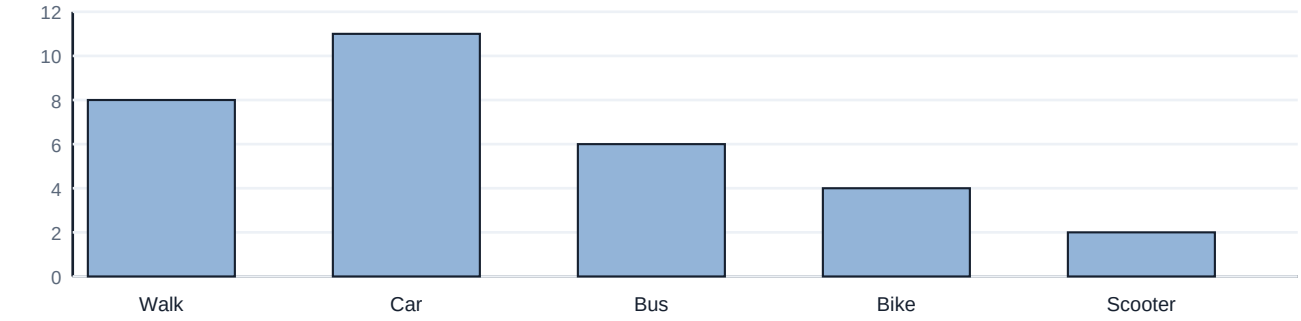
Year 6 Statistics and Probability · Diagnostic · 12 minutes

NAME _____ CLASS _____

Not marked, and not for your report. It tells your teacher what to teach next.
If you do not know, write what you think or leave it blank. Both are useful.

READING A GRAPH

Year 6 students were asked how they usually travel to school.



1. Which way of travelling was the most common? _____

2. How many students were asked altogether? _____

NUMBERS AND CATEGORIES

3. Tick whether each one is a NUMBER or a CATEGORY.

WHAT WE COLLECTED	NUMBER	CATEGORY
Eye colour	☐	☐
Height in centimetres	☐	☐
Number of pets at home	☐	☐
Favourite sport	☐	☐
Time taken to run 50 m	☐	☐

DESCRIBING A SET OF NUMBERS

Eight students counted how many books they read last month:

3 5 2 5 4 5 1 8

4. What is the MODE of these numbers? _____

5. What is the difference between the largest and the smallest? _____

6. You want to show how many students in Year 5 have each eye colour.
Which display would be best? Circle one.

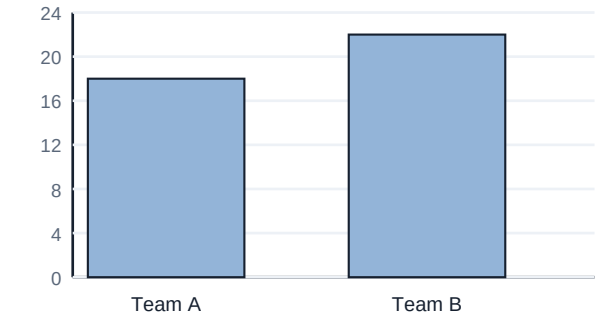
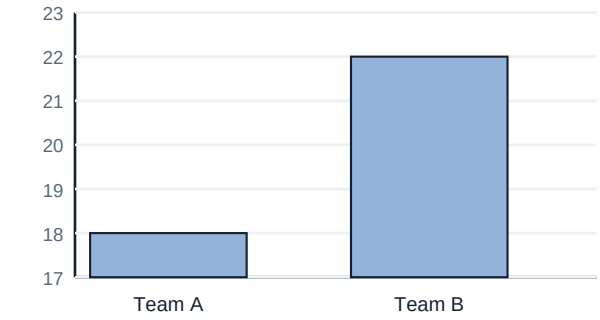
THE SAME NUMBERS, TWICE

Both graphs below show the SAME two results: Team A scored 18 and Team B scored 22.

Graph 1



Graph 2



7. Which graph makes the difference between the teams look bigger?

_____

Why do they look so different, when the numbers are the same?

_____

_____

8. Which question could you answer by collecting data from your class? Circle one.

What is my favourite colour? What is 7 × 8?

What is the most common eye colour in our class?
