Name		Team	

Team Comet’s counts

Fifteen buddies played Treasure Bag. Two of them left before they could be timed or asked, so some counts add to fewer than 15. That is correct.

Rating	Buddies who gave it
1 did not enjoy it	0
2 it was okay	2
3 I liked it	6
4 I loved it	5

Part A · Describing the ratings

SF A

Which rating is the mode? How do you know?

SF B

Four visit times were 12, 15, 11 and 18 seconds. What is the range?

Remember: the range is one number. Take the smallest away from the biggest.

CF C

Finish this sentence so it is about buddies, not about bars.

"MOST BUDDIES…"

More frames: "The most common rating was _____." · "Nobody _____." · "One thing that surprised me was _____."

Our own display

Pick one column from your team's cleaned file: outcome, rating, or wins. Not the visit times — those need grouping first, which is Lesson 13.

The column we chose	

Its type	

Our frequency table

Value	How many buddies

A sketch of our display

Rough is fine. The real one is on the screen. Give it a title and label both axes.

Three sentences about it

THE MODE

THE RANGE, OR WHY THERE IS NOT ONE

THE SHAPE

Frames: "The most common _____ was _____." · "There is no range because _____." · "Most buddies _____, and _____."

Exit ticket

On your own. Five minutes. Nine buddies rated a game: 4, 3, 4, 2, 4, 3, 1, 4, 3.

SF 1

What is the mode? What is the range?

CF 2

Write one sentence describing the shape of those nine ratings. It must be about buddies, not bars.

Frame: "Most buddies gave it _____, but _____."

CU 3

Someone reports only "the mode was 4". Name one thing about those nine ratings that this hides.
